Each has maintained a dignified attitude far removed from bluster but firm beyond any misuaderstanding. Together they immisunderstanding. THE BRAKE-CHAINS SNAP. The Car Leaves the Track and the Conductor Is Badly Hurt.

The National Bank of Virginia moved yesterday from its temporary quarters back to its remodelled banking-room in the old building. It now has as beautiful the old building. It now has as beautiful and convenient quarters as any similar institution in the South. The old dark, heavy counters have given place to light but rich and substantial oak banking furniture of the most modern and approved patterns. Instead of side-desks running along the walls one aislo or obiong lobby tiled, in fine tiling, runs from the front door down the centre of the building. At the extreme end of this lobby are the tellers' windows, and to their left is the board room. To the left of the front door as one enters is the castier's room, and to the right the enlarged accommodations of the Savings Bank of Richmond. On either side of the lobby are the desks of the book-keepers and other clerks. The gilt-work above the desk level is of silver steel, and the walls have been frescoed in most tasteful combinations. The arrangements for light and ventilation are perfect. Officer Hall Gone for Bill.
